

# PG2

PISTOL GRIP SHOCK MOUNT

# RØDE<sup>®</sup>

MICROPHONES

Shown with NTG-2 and tail cable, sold separately

## Features

The RØDE PG2 Pistol Grip Shock Mount is designed to reduce handling noise when recording with shotgun microphones.

It supports microphones with a diameter of 19-20mm or 21-22.5mm using the supplied interchangeable mounts, and a handy release lever on the mount allows for quick and easy adjustment of the microphone angle.

Cable management is an integral design feature of the PG2 pistol grip, with the cable running through the handle assembly to minimise any handling noise or clutter. Additional cable security is provided on either side of the rubber shock mount.

The PG2 can be operated by hand or attached to a boompole via the 3/8" thread attachment at the base.

## Specifications

Weight	266g
Mount length	50mm
Supported microphone diameter	19-20mm and 21-22.5mm (using interchangeable mounts)
